# Iván Luna - Software Developer

### Personal Information:

- Name: Iván Luna
- Location: Buenos Aires, Argentina
- Email: contact@ivanluna.dev

#### **Professional Profile:**

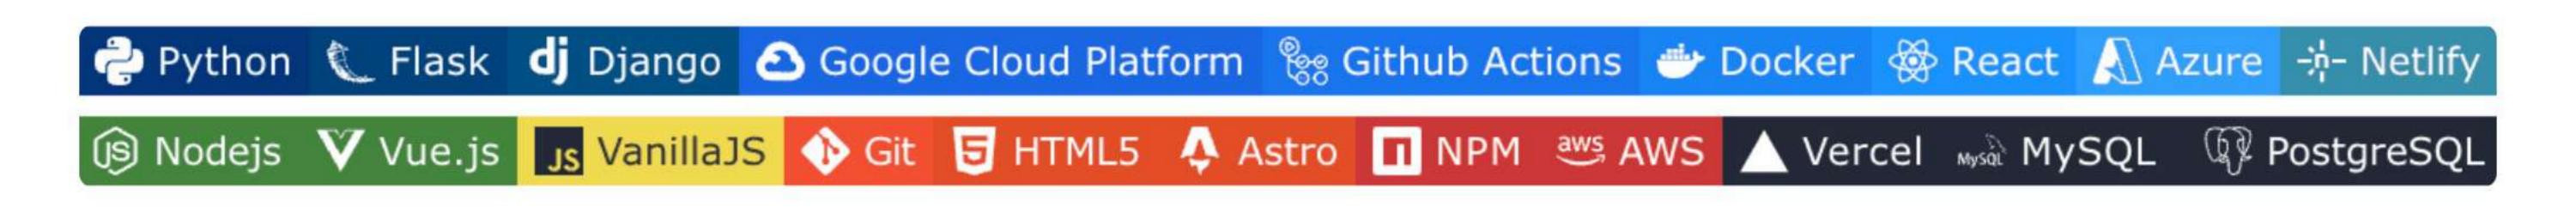

Based in Buenos Aires, I specialize in backend and fullstack development, with a technical focus on Python since October 2020, when I began learning to program. My experience in frontend development includes working with Vanilla JS, React.js, Node.js, and more. Always integrating these technologies into Python-based backend solutions. Additionally, my projects have involved approaches utilizing cloud platforms like AWS, GCP, and Azure. Eager to transition into my first professional role in development, I'm ready to contribute to innovative projects and leverage my expertise!

#### Work Experience:
